

I am a New Jersey resident who is incredibly thankful for the NJ Do Not Call Registration. I receive, during weekdays, 7 to 10 calls per day from telemarketers. Then there are an additional 4 or 5 I receive where no one responds when I answer. By recently registering with NJ Do Not Call, I can't wait to no longer be bothered with such calls and having to run to the telephone everytime it rings to hear a sales pitch. PLEASE save my sanity by not overturning the NJ Do Not Call registration.
